PHOTOGRAPHIC ROOM. Mr. Fitnt, the Chief of the Room, and Another Mun Were flown Through the Door, and Three Others Were Blown Through Windows Out on the Lawn. WASHINGTON, April 22. The United States

Patent Ciffer was for the third time visited by fire at about 1:15 this afternoon. The scene of the blaze was in the southwest corner of the basement, in the photographic blue print room, close to a crowded public thoroughfare. Mr. Flint, chief of this room, was pouring ether into five-gallon jugs, when the liquid exploded, and, running down the floor, came in contact with the stove and ignited. Mr. Flint was caught in the flames and severely burned about the face. arms, and shoulders. He was removed to a drug store across the street, where his wounds we e dressed, and he was then taken to the

drug store across the street, where his wonder we e dressed, and he was then taken to the Energency Housital.

Watchman Furkins, who can into the room to bee what the Irontole was, was also caught in the flames, and received painful burns. Miss Nevius, in charge of the telephone times in the building, whose office is 1. the adjoining room, was overcome by smoke and fainted, but was carried out unhighred by one of the employees. The room was filled with chemicals and expanded to the complex of the control to the control of the building.

The photographers and assistants had many The photographers and assistants had many narrow escapes for their lives, and nearly all were on fire, as the explosives flew all about the room. Resides Mri Flint, the chief, there were present at the time of the explosion Assistant Photographer Theilkill, J. B. Wheat, Jr. J. E. Latiner, and Mr. Blackage, assistants. Mr. Theilkill's story of the occurrence was that while Mr. Flint was souring about five gallons of ether into a bottle the bottle felt to the slate floor and broke, the contents running along the place. He began sweeping it toward the door, remarking to those about to be careful with the lamps, &c. Some or the fluid resched the stove and there was an explosion, which was quickly followed by a secone with considerable force, blowing up about seventy, five bottles. Mr.

and there was an explosion, which was quickly followed by a second with considerable force, blowing up about seventy-five bottles. Mr. Fint was shown through the door, his head striking mass of apers piled in the hallway. He stose, his clothing in a blaze, and rushed for the area, calling for help.

J. B. Wheat, Jr. was standing near Mr. Fint, and was also blown through the door, his heir ablaze and clothing torn. He received no permanent injuries and attended to Mr. Fint. J. E. Latiner was blown through the open window onto the lawn and was followed through the adjoining window by Mr. Blackare, who was in the dark reom at the time.

Mr. Theilkill was blown across the room by the irst explosion. He was blown through the window by the second. His escape from injuries was a miracle. His spron was on fire, his head singed, bis hat blown into fragments, and his coat torn in many places.

his head singed, his hat blown into fragments, and his coat torn in many places.

Stored in the room were 18 gallons of collodion, 200 gallons of ether, and 100 pounds of gun coviem. Of course these and everything else in the room were lotally destroyed.

After half an hour's hard work the firemen extinguished the flames before they could spread to the adjoining offices. The loss was about \$1,500, principaily in photographic apparatus. Most of the original drawings were saved, and of those destroyed a good many can be replaced. Along the halls in the vicinity were stored a number of files which contains records of the office and other papers, and a great number of these were damaged by water.

The Patent Office has twice previously been on fire. In 1877 a fire occurred there which burned for twenty hours and totally destroyed the museum, necessitating the entire reconstruction of that portion of the Interior Department building.

ALLEGED POLICE PERSECUTION. man Grinnon, on Trial for Assault.

Policeman Edward Grinnon of the East Sixtyventh street station was put on trial before the Recorder in the General Sessions yesterday for assaulting Giuseppe Pietro, bootblack at Third avenue and Sixty-seventh street, on April 15, 1894. The indictment was uncarthed recently by Commissioner Andrews. Frank Mar-Pietro's partner, testified that Grinnon owed them 75 cents, and that they complained to the Sergeant. Grinnon met Pietro afterward and assaulted him. Another policeman came up, and the two bootblacks were arrested and charged by Grinnon with fighting in the street.

They were fined by Justice Voorhis in the York-ville court, but the real story came out later. Martine testified further that since last Wed-nesday a man had been following him about and mesday a man had been following him about and trying to induce him to shape his testimony so that the policeman would get off. The man offered to make him a deputy foreman in the Street Cleaning Department. On Saturday night the man picked a quarrel with him outside a saloon in Third avenue. Policeman McDonongh of the hast Sixty-seventh street station was conveniently at hand and arrested Martine. Martine says also that two witnesses who accompanied him to the station were chased out by Capit. Strauss. Martine says that when he threatened to take the matter to the District Attorney, it locked up, the Capitan discharged him. The case will probably go to the jury today.

AUGUSTIN DALL WINS

No Evidence that He Made a Contract Abroad with His Property Man.

the suit in which Augustin Daly, the theatrical manager, was charged by the National Protective Union of Carpeniers with a violation of the Allen Contract Labor law in entering into a contract for the employment of Henry W. Elliot as property men in his theatre. Mr. Daly was not present and his deposition was read as evidence.

Elliot was employed by Daly in August, 1894. Before he arrived in this city the Theatrical Protective Union received notice of his coming. Elliot was allowed to land, but was arrested afterward and held for deportation. Elliot appealed to the Secretary of the Trenshry, who sustained the immigration officers. Elliot returned to Engisted, but re"mbarked at once and resumed his duties in Mr. Daly's theatre on his acrival. The present suit was then braught. Elliot claimed that he was an artist, having sudded designing, painting, and modelling for several years, and was therefore not amenable to the law. He denied having entered into any contract, but had borrowed a sum of money from Mr. Daly, with which he had paid his passage to America.

After hearing Elliot's testimony, Judge Lacombe said there was no evidence to show that a contract was made in England, and for this reason he would not let the case go to the jury. tective Union received notice of his coming.

CALLED TO COLUMBIA'S FACULTY. Prof. J. H. Robinson to Fill the Chair of European History.

PRILADELPINA, April 22.-Prof. James Harvey Robinson of the University of Pennsylvania has accepted a call to Columbia College in New York city as Professor of European. History. Prof. Poblason will begin his work at Columbia Prof. Robinson will begin his work at Columbia with the opening of the next academic year. Prof. Ribinson came to the University of Pennsylvania in 1891 as iccturer on European History in the Department of Philosophy. In the fall of 1992 ne was appointed associate Professor of European History. He was born in Bloomington, Ili., in 1863, graduated from Harvard in 1887, and after a year of post-graduate study in history at Harvard he went to Germany and took the degree of Doctor of Philosophy.

Expelled Coffee Brokers Go to Court.

Applications in behalf of two suspended memrs of the Coffee Exchange were made to Judge Lawrence in Supreme Court, Chambers, yesterday for writs of mandamus to compel the officers of the Exchange to reinstate them. The cers of the Exchange to reinstate them. The applicants are Thomas E. Luhman and J. Wagner. They were expelled on account of transactions involving the rale of a large quantity of coffee to trossman & Co. of Philadelphia. It was charged that the coffee was not up to contract, and that it had been adulterated. This assertion was disputed, and the Exchange aptointed arbitrators. They sustained the charge, and the two members were expelled.

E. M. Siegard, in behalt of the Exchange, rabed the mint that the action of the officers of the Exchange was final, inasmuch as they had simply enforced the rules of the Exchange, and that the court had no jurisdiction. that the court had no parisdiction.

While Juage Lawrence was inclined to think
that the point was good, he said he would ex-imine the papers.

PERRY'S EXTRADITION

Must the Train Robber's Santty Be In-

Ex-Judge Hoffman and Alexander Simpson, the lawyers who are trying to prevent the extradition of Train Robber Oliver Curtis Perry, raised a new point yesterday at the hearing before Court Stenographer Negent, Mr. Nugent, in his ca-pacity as Supreme Court Commissioner, is taking testimony in the habeas corpus proceedings. He sat in the rear court room in the Jersey City Court House, Dr. Allison, superintendent of the Matteawan Asylum, and his assistant, Dr. Lamb, were present to prove Perry's identity. Lawyer Leon Abbett looked out for the interests of Detective Clifford, Perry's captor, who is getting a little anxious about the \$2,250 reward.

The point raised by Perry's lawyers was that

he was entitled to an investigation on the ques-tion of his sanity in order to determine the habens corpus proceedings. Justice Ryer's comhabeas corpus proceedings. Justice Ryer's com-mitment sets forth that the prismer is an es-caped lunatic from the asylum at Matteawan. Escaping from a lunatic asylum in another State is not a crime which is extraditable under the laws of New Jersey. If an investigation proves that Perry is insane, he cannot have a hearing on the habeas corpus proceedings until such time as he becomes sane and is so declared by competent authority. This subtle argument rather rattled the insane asylum officials. Com-missioner Nugent made a note of the point rather rattled the insane asylum officials. Commissioner Nurent made a note of the point raised and will submit it to Justice Lipphicont. Then he proceeded to take the testimony on the habeas corpus proceedings.

Perry was brought over from the Jail to be hierathed. The condition of his feet has improved, and he was able to wall, with a little assistance. Dr. Allison and Dr. Lamb both identified him. Dr. Allison submitted the records of the New York coarts showing Perry's convection and sentence, and his transfer from the Auburn prison to the neylum at Mastrawan He also testified to Perry's escape from the asylum. Air. Nugent will submit the testimony to Justice Lippincot to-day.

He also testified to Perry's escape from the asylum. Air. Nugent will submit the testimony to Justice Linpincott to-day.

Perry is still the centre of attraction at the jail. Admirers and sympathizers send him flowers and cigars. Verterday some one sent him a box of salve for his feet. He is in excellent spirits, and is almost beginning to think that his lawyers may be able to get him clear.

RROOKLYN'S TROLLEY LINES.

The City Will Make the Companies Pave

the Tracks Properly. City Works Commissioner White of Brooklyn, after reading a communication in THE SEN about the neglect of the trolley companies in failing to provide a proper life-saving fender failing to provide a proper life-saving fender and also for neglecting to keep the space between the tracks in proper repair, said:

"I'm going to see what can be done to make the trolley companies live up to their agreements with the city. The condition in which the trolley companies have left the paving between the tracks is disgraceful. The only remedy the city has is to do the work liself and then auc the companies. Smoother pavements mean lower fenders and lower fenders a saving of life and lifth,"

and limb."

The Brooklyn Aldermen yesterday gave permission to the Coney Island and Brooklyn kinitroad Company to extend its tracks through High street from Jay to Washington, a distance of three blocks. The company has agreed to pay the city \$5,000 within thirty days for the privilege.

pay the city \$5,000 within thirty days for the privilege.

Fourteen trolley speed inspectors were appointed by the Brooklyn Board of Aldermen yesterday. They will get \$2 a day. They are George Jacquillard, John D. Young, W. Danford, George Jacquillard, John D. Young, W. Danford, George Jens, Benjamin Wolf, James D. Crawford, D. J. Donovan, W. Nooman, D. Tyson, George Leifngwell, August Schmidt, Charles Hoffman, G. Nathan, and Samoel T. Waterhouse. All are active Republican district workers except Noonan, who is a Democrat.

DUEBER AND THE WATCH TRUST. Motton to Dismiss the Suit for \$100,000 Damages Dented.

A motion to dismiss the suit of the Ducher Watch Case Company to recover \$500,000 damages from the principal watch manufacturers in the country who were at one time members of the "Case, Movement, and Jobbers' Association," and who, it is alleged, combined to freeze out Dueber and ruin his business, was made in the Supreme Court yesterday. The plaintiff had Judge Lacombe of the United States Circuit | put in its case, and the cross-examination of the witnesses that were called for the plaintiff was the evidence for the defence. There is no dispute as to the formation of the association and of the refusal of the members to sell to or buy

of the refusal of the members to sell to or buy from Dueber, but it is the question whether the members did so voluntarily, preferring to silek by the association, or whether they were threatened with a boycott if they sold to or bought from Dueber.

Judge McLeman denied the motion. He said that it was for the jury to say whether the acts of the defendants in dealing with the jubbers were filegal and intended for the purpose of interfering with the business of the plaintiff. The outstion was whether the jubbers acted without threat or whether they were forwed by the manufacturers to cease to deal with the Bucher Company of the jubbers refused to buy of the jubber Company without threat or coercion, then there could be no recovery. The question whether there was a threat or not must be left to the jury. The case will go to the jury to-day.

The Loyal Legion and W. S. Andrews.

The military order of the Loyal Legion is investigating William S. Andrews, ex-Commis-sioner of Street Cleaning. As heretofore stated In THE SUN, Mr. Andrews himself asked for the investigation at a dinner of the Legion held at Investigation at a dinner of the Legion held at Delmonico's some months, ago. At his request charges based on testimony given before the Lexow committee were made by Capt. James Parker, a member of the order. The sessions are going on now, but every member of the In-vestigating Committee has been piedged to se-creey. Gen. Horace Porter is presiding at the sessions.

Building a House Boat to Evade Taxation Lyons, April 22.-Benjamin Dudley of this village is constructing a craft which he has village is constructing a craft which he has dubbed The Evader, and into which he and his wife will move when the boat is completed. It is a sort of a house boat, and will be put in the Eric Canal. Dudley says he is tired of paying taxes and cannot afford to buy a house and lot or to rent, and will invest \$150 in The Evader, and will thus evade taxation. He will anchor his craft here and work at his tradeas mechanic, and if work gets slack will get the boat to red to a better place, having his home with him all the time.

In spite of a slightly lower market for American railway stocks in London the tone at the opening here was strong, and during the first actively traded in enjoyed sharp advances. Chief among them were Chicago Gas, the anthracite coal stocks, New York and New England, Louisville, New Albany and Chicago preferred. and Tennessee Coal and Iron. The movement in the coal stocks, which influenced the entire speculation, was based upon the fact that the Presidents and other officials of several of the authracite producing and carrying companies went to Philadelphia to-day to confer with the receivers of the Reading Company. The temper of the Street is so hopeful that it jumped to the conclusion that an adjustment of the differences that hold the anthracite industry in check was at hand. There was in consequence heavy buying of Reading that left the price of that stock 14 2 cent, higher than on Saturday, and moderate buying of the shares of the solvent anthracite carrying companies that resulted in even greater net gains than that recorded for Reading. The speculative community will doubtless be

disappointed when it learns to-morrow morning that the negotiations between the various anthracite interests were not changed by to-day's conference in Philadelphia. The receivers of the Reading Company, according to trustworthy information, show no disposition to recede from the position they have taken, namely, a nuthracite. So far as can be learned, howhave not been abandoned. A net advance of nearly 2 points in Chicago Gas, together with dealings in that stock that were not shadows favorable developments which have not yet been made public. Some of the buying and to cover shorts put out, because the ing improvement in prices, but more of it was of a confident character suggestive of an improvement in the local status of the enterprise The impression prevailed that the advance in New England was partly due to the covering of shorts put out by Boston interests that are believed to have instigated the move in the Rhode Island Legislature against the measure desired by the Reorganization Committee in connection with similar enabling legislation that it has obtained in adjacent States, Activity in Louisville, New Albany and Chi-

cago preferred, at advancing prices, is explained by the progress in financing that company noted further on in this column. The condition of the fron and the leather market account for the interest shown in Tennessee Coal and Iron and in the United States Leather preferred. Sugar Refining and Kansas and Texas pre-ferred received a good deal of attention, but in both cases an early advance in price appeared to invite realizing sales. London bought, according to the estimates of foreign arb trage houses, fully \$500,000 par value of Atchisen general mortgage bonds, presumably on the formal acceptance of the plan of reorcommittee, European investors and dealers railway londs. The demand has extended to the Continent, considerable orders abroad included upward of \$500,000 Southern Railway general mortgage 5s. The dealings in and the purchases for European account exert-

ing executed here for both Berlin and Paris, It is learned that recent shipments of bonds bonds to-day were the largest in several years, ed a distinct influence upon the market for sterling exchange. The stock market showed as a whole a tendency to react, which is natural in view of the almost uninterrupted improvement back seems improbable at the moment.

Evidence is discernible in a number of quarters that a portion of the greater activity in stocks is due to the decadence of the bucket shop swindle. The practice of those concerns to suspend payments, go out of business, or change their titles for the purpose of defrauding their

The Chicago and Northwestern Railroad Comonly reports gross earnings for March of \$2,708,706, a decrease of \$220,256 as compared with the same month last year. The Pittsburgh and Lake Eric Railroad Com-pany reports for the year ending Dec. 31: Gross earnings. \$3,850,175 \$4,040,784 Dec. \$100.00 Op. ex. and taxes \$2,650.000 2,904,712 Dec. \$40.08

Surplus... \$124.084 \$28.017 Inc. \$95.767

It is understood that the amount of each that the management of the Louisville, New Albany, and Chienga Raifroad Company has provided to pay off feating debt, take up equipment obligations, and defray the expense of importantian of the company is approximately \$1.000,000. The money is practically in hand, as the securities that the company proposes to offer to its stockholders have been underwritten by a bankers' syndicate. It will be remembered that about a year ago the company authorized an issue of \$1.000,000 equipment sinking fund 5 \$\frac{1}{2}\$ cent, bonds, None of the issue has been sold, but about two-thirds of the bonds will be used in the present operation, together with a companyively small amount of preferred stock. The interest charges of the company will be reduced by the transaction, as the annual interest charge on the equipment bonds to be issued is less than is now paid on the floating debt and car trusts which will be taken up. As to the preferred stock, its argued that, although the amount is to be increased, the entire issue will derive the benefits of the improvement in the company s'acilities and the smaller charges. The Summit Branch and Lykens Valley Rall-road reports years earning for March of \$100.000. the company's facilities and the smaller charges.

The Summit Branch and Lykens Valley Railroad reports gross earnings for March of \$160, 793, an increase of \$23,003 as compared with the rame month of last year, and net \$692, an increase of \$3.5,046. For the three months ending March 31 the gross earnings were \$507,875, an increase of \$113,369 as compared with the corresponding period of last year, and net \$97,719, an increase of \$145,021.

The receipts of the Government to-day were: Customs, \$42,437; Internal revenue, \$892,476, and miscellaneous, \$21,825, a total of \$1,304,749. The disbursements were \$500,476, being an excess of receipts over expenditures of \$367,264.

The net assets of the Treasury at the close of business to-day, as officially computed, compare with those of Saturday as follows:

95.120.878 96.153.974 Available cash halance, in-cidding gold reserve ... \$153.547.569 \$180.654.104

To Keep Fire Escapes Clear,

There was a conference at Police Headquar ters yesterday between President Le Grange of the Board of Fire Commissioners, Superintendent Constable of the Bullding Department, Police Commissioner Lie hullding Department, Police Commissioner Martin, and Superintendent Byrnes. It was relative to the enforcement of the liny requiring householders to keep fire escapes free from encumbrances. It was decided to ask Mayor Strong to call a conference of the heads of the Police, Fire, Building, and Health departments to discuss the question and take some action.
